FOR IMMEDIATE RELEASE

Graphic Finishing Partners adds 2 more professional wide format laminators to its competitive lineup

Green Lake, WI, February 15, 2012 - Graphic Finishing Partners LLC (Gfp) recently introduced its new 200 Series Professional Cold laminators in 30" and 55" widths. In keeping with Gfp's strategy to provide high performance at an entry level price, the new 200 Series continues to level the playing field for smaller shops.

Designed for cold lamination, mounting, and pre-mask applications, the 200 Series is an affordable alternative to hand lamination. Both models are simple to operate and fully functional, yet reduce the acquisition and operation costs even more than the already popular 400 Series.

Features focus on ease of operation and quality of output. Paired with a wide format printer, the 200 Series will consistently produce professional looking graphics for applications like posters, POP displays, single side lamination, board mounting, photo mounting, pre-masking, and applying colored vinyl.

Each unit ships complete in one crate to keep freight costs low, and can be set up in minutes. No special wiring is needed because the units plug into any 110V household outlet.

Industry veterans and Gfp co-owners Mitch Noble and Bob Pryor are very encouraged by the feedback they are getting from shops that were previously unable to compete for lamination jobs because of the cost of quality equipment. "By simplifying the operation and concentrating on output quality, we are working hard to make quality lamination affordable to everyone," says Noble.

Gfp provides on-site installation and service for the all their equipment through national service technicians. For more information about our dealer network, please contact Bob Pryor at 941-552-6691 bob@gfpartners.com or visit our web site at www.gfpartnersllc.com.

See the New 200 Series at the ISA Show in Orlando March 22-24 booth #135

About Graphic Finishing Partners LLC (Gfp)

Graphic Finishing Partners LLC (Gfp) opened its doors in 2009 in response to the growing need for more affordable, yet high quality, print finishing equipment and supplies. Its mission is to provide finishing shops with the tools they need to produce profitable results while helping them keep their costs down. Gfp offers laminating equipment and supplies through dealers nationwide.
